

Lakeland Children's Center Newsletter

Thomas Jefferson Edition

I would like to extend a warm welcome to our new and returning families!

Along with new families, we have new staff members to add to our amazing returning staff, we welcome the addition of Miss Ashley and Miss Christine.

The staff has been planning many activities for the center this year. We have already enjoyed some great arts and Crafts, as well as, enrichment programs in these past few weeks.

For those new to our center, a typical day in our program starts at dismissal, the children come directly to LCC in the APR. We proceed with hand washing & bathroom, followed by snack. If weather permits, we go outside for a few minutes before we start homework. On Tuesdays, Wednesdays and Thursdays, tutors (certified teachers within the district) visit us for homework help. After homework is finished, a number of activities are provided for children to participate in, such as outside sports, games, Crafts and just relaxing if they choose. A second snack is

served about 4:45 for those who stay later.

A few times a month we have enrichment programs. Enrichment programs include, sports, legos, art, cooking, sewing, yoga, Zumba. Anything we like! In the last few weeks, some of our enrichment programs have included Coach Chris, outdoor games and races. Melissa, (from Michael's Art Store) brought with her an air dried Clay project and Briks 4 Kids, a motorized Lego company, taught us how to build.

As the children settle into our routine, I would also like to remind parents of our procedures. Our "communication corner" on the front desk, is near the sign out sheet. I encourage all parents to take any fliers that are there, it will have important LCC information. I will post all upcoming special events on the bulletin board so you can plan accordingly. We will be notifying all families of any cancellations, delays etc. through text messages. Please confirm with me that you have been signed up to receive them.
